SAFETY BEGINS WITH A HAZARD-FREE FLOOR!

The NATIONAL SAFETY COUNCIL says . . .

"From the safety engineer's standpoint we know that continued standing on a hard floor causes discomfort, fatigue and loss of efficiency. For that reason it is a good practice to provide relief which may be in the form of . . . mats or other floor surfaces that are less hard on the feet." ■ It is recommended that mats be used at entrances to minimize the slipping hazard even where the walking surface is tile or terrazzo containing abrasive. The use of mats also helps to reduce the amount of moisture which may be tracked into the building during bad weather. Where the surface slopes, mats are essential. Mats must be of a kind that do not in themselves present tripping hazards." ■ The effect of excessive noise on employees should also be considered since noise is a known factor of fatigue. Rubber mats have been used to lessen the amount of noise on certain types of flooring. These mats also protect the flooring surface."

6-57 VY-CARP

A luxurious carpeting in runner lengths and stock sizes. Widely used in heavily trafficked areas. A positive way to trap dirt and moisture. Reduces cleaning costs, prevents slips and falls.

Widely used in churches, motels, hotels, restaurants, rest homes, schools, industrial plants, apartments, hospitals, offices, banks—etc.

The surest way to reduce your maintenance manhours spent in mopping and scrubbing entranceways—is to stop the dirt with Vy-Carp! Vy-Carp's outstandingly successful nylon-on-vinyl combination traps all dirt at the door—and keeps it there. This is a high quality Carpet Mat at an especially low mill price.

AVAILABILITY: Three colors: Beige tweed, Gray tweed, Red/Black tweed.

SIZE: Slightly under ½" thick; three widths: 36", 48" and 72". Roll lengths approximately 20 yards. Also stock sizes shown below.

WEIGHT: Approximatey 3/4 lbs. per sq. ft.

CONSTRUCTION DETAILS: Long-wearing cut nylon pile permanently bonded (no adhesives used) to a pliable vinyl backing. Vy-Carp grips the floor and stays put. The rugged vinyl backing will not chip, crack or become "rubber-brittle." There is a 1" overlap border of vinyl running the length of the carpeting on each side. Stock sizes have 1" border on all sides. Can be rolled and stored. To clean, vacuum or broom, wet shampooing if excessively soiled.

SPECIFICATION DETAILS REQUIRED: (1) Width, (2) Length, (3) Color.

Stock Sizes	Price	Stock Sizes	Price
